**BLADE MOTORCYCLES SWINDON'S ANNUAL
LAKES & LOCHS TOUR 26TH - 29TH APRIL**

THE LAKES & LOCHS TOUR
RUNNING FROM THE 26TH - 29TH APRIL

Lakes & Lochs tour 2013, it's an awesome event and it would be great if you can make it.

Day one. Out here at Blade Motorcycles Swindon we'll be working our way up to the Yorkshire Dales taking in some beautiful and famous biker roads as well as some lesser-known little gems. As we pass through the English countryside you can see the vistas change from rolling fields, through the natural beauty of the peak district into the rugged farm land of Northern England where we'll have our first nights stop at just out side Skipton.

Day two. We leave Skipton on a road through the dales passing the sort of little villages that look like they've been there so long the hills have had to grow up around them. From then on it's fast flowing roads out of Yorkshire and up to the spectacular flandscapes and forests of Northumbria before crossing the boarder into Scotland. Once into Scotland we pick up the old road to Edinburgh before changing tack and heading cross-country over the top of Glasgow to our second nights stop at Arrochar & Tarbet. These two villages are separated by no more than a few miles and are situated on the shores of Loch Long and Loch Lomond. If riding in Scotland doesn't stir your soul you don't have one!

Day three. Morning. For those who want to there will be a morning ride up and around the breath taking landscapes of the west coast. If however you'd rather have a break from the bike, a bit of a lie in, and explore Loch Lomond then we'll meet back up in Arrochar for midday.

Day three. Afternoon. The PM will see us heading down to the Lake District and the final nights stop in Pooley Bridge on the shores of Lake Ullswater.

Day four. The Lake District crams in the most spectacular views and riding possible so every twist and turn takes your breath away. We'll be stopping in Ambleside for a spot of playing tourist then we'll cut back into Yorkshire and the popular bikers meet of Devils Bridge. Then it's a perfect tarmac roller coaster of a road that runs almost all the way to Preston. From Preston we jump on the motorway and head for home.

Accommodation

As the areas we are staying in are quite rural with a good range of smaller B&B's, Pubs and small hotels so there should be accommodation available to suit everyone. However it is limited and will be busy in the summer months so I'd recommend making bookings early.

Friday
